

Attract Attention, Impress Visitors  
Win Customers!

## Iran Confair Stand Construction Manual

You exhibit to showcase and promote your products and services, raise your profile and finally keep and attract customers. Yes, we know that!

Whether you prefer to have a shell scheme stand, pavilion or special custom made stand, we can help you with everything needed to plan and build your stand, and provide necessary equipment.

Generally there are three kinds of stands available; shell scheme stand, pavilion and custom made stands, along with rental equipment used in stand during the exhibition.

## Special Shell Scheme Stands:

Shell scheme is a prefabricated modular system of making the stand. This make your participation more economic and effective. We can provide you shell scheme stands if you choose the option of the shell scheme stands.

## Special Designed Pavilions:

Pavilion is a kind of stand, between modular and custom made stands. These stands are designed and implemented based on the location of the space and number of companies involved. They do not have all of the nuances, and are technically simple version of custom made stands.

## Special custom-made stands:

The initial design of your stand will be provided in 3D format and you can observe how your stand looks. These special stands are made by any available material which may be ordered by the exhibitors.

## Special custom-made stands:
